

The 5th edition of the IADIS International Conference on Information Systems was held in Berlin, Germany, during 10 to 12 March, 2012.

This conference was organized by the International Association for Development of the Information Society (IADIS).

Once more, this event aimed to address the issues related to design, development and use of IS in organisations from a socio-technological perspective, as well as to discuss IS professional practice, research and teaching. The conference was structured along with five main tracks such as: IS in Practice, Technology Infrastructures and Organisational Processes, IS Design, Development and Management Issues and Methodologies, IS Professional Issues, IS Research and IS Learning and Teaching.

The 2012 edition received 188 submissions from more than 36 countries. Each submission had been anonymously evaluated by an average of four independent reviewers, to guarantee the final high standard of the accepted submissions. Out of the papers submitted, 38 papers received blind referee ratings that signified acceptability for publication as full papers (acceptance rate below 21%), while some others were published as short papers, reflection papers, posters and doctoral papers.

Extended versions of the best papers were selected to be published in:

- ❖ the IADIS International Journal on Computer Science and Information Systems (IJCSIS). ISSN 1646-3692.

The 5th edition of the IADIS International Conference on Information Systems, besides the presentations of full papers, short papers, reflection papers, posters and a doctoral consortium also included one keynote presentation presented by Prof. Dr. Egon Berghout, University of Groningen, The Netherlands.

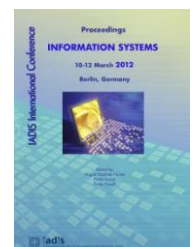

Keynote Presentation:

“PREPARING THE IS DISCIPLINE FOR THE YEAR 2022”

by Professor Dr. Egon Berghout, University of Groningen, The Netherlands

The 2012 conference proceedings was published both in Book (ISBN: 978-972-8939-68-7) and CD-ROM (ISBN: 978-972-8939-65-6).
